Eric, after downloading all, they will appear in the C:/RM_ouptut/photo directory. Here's a screenshot http://cl.ly/image/0u0F1f182V03.

I think maybe we need to improve that interface. What do you think about a right-click, "Download File" option for that grid? Also, what do you think about opening audio/video files in the system default media player?

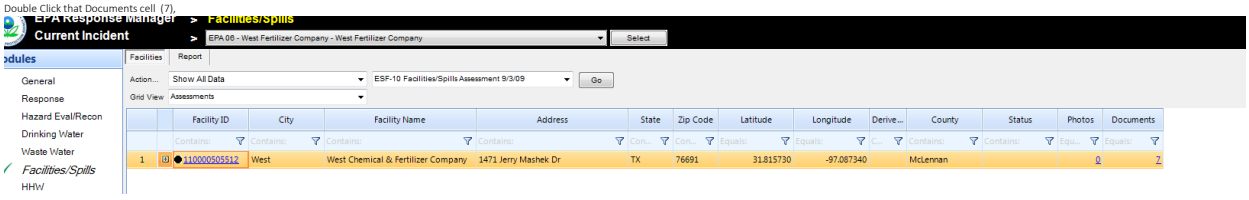
Hi, Eric:

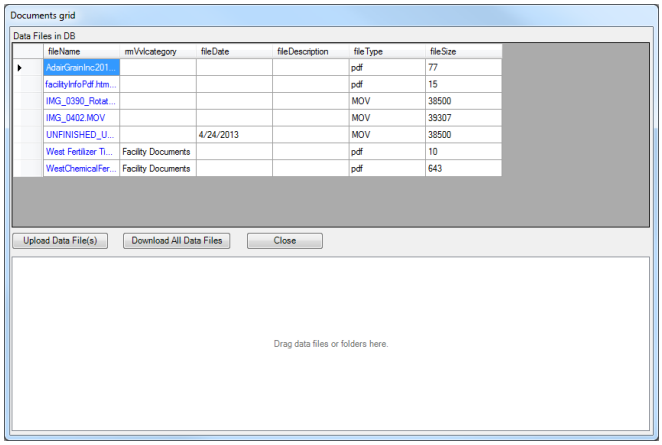
Here is how to get the doc in the facility module

Double Click that Documents cell (7),



It will pop up the datafile grid

9447153



Select all then download them, or try to open the one by one.

Let us know.

Thanks.
